

GAME INSTRUCTIONS

AGE
4+
2-4 Players

OBJECTIVE

Be the first player to collect 20 winks.

SETUP

When played for first time, affix action stickers (add and subtract) on game token.

Remove the winks and game pieces from the reclosable bag and place them into a pile.

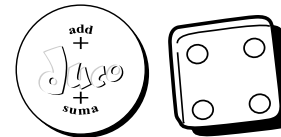

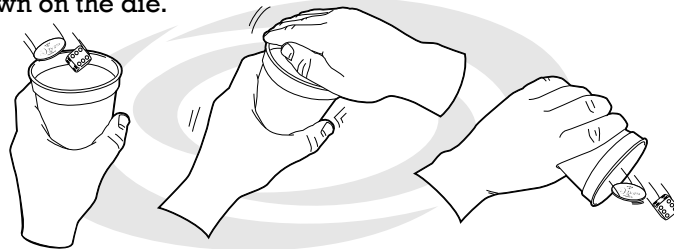

Each player counts out 7 winks of the same color of their choice.

HOW TO PLAY

The youngest player goes first. Play then continues to the left.

Place the die and the game token into the shaker cup. Place a hand over the top of the cup and carefully shake contents. Pour out contents.

Read the side of the token facing up and either **ADD** or **SUBTRACT** the number of winks shown on the die.

In this example, you would add 4 winks to your pile.

- When subtracting winks and the player does not have enough winks, the player returns what is available to the pile and play continues.
- When adding winks and the player no longer has enough winks of their color choice, the player is considered the winner.

Continue play until the first player reaches 20 winks.
